

23 September 1965

Mr. Bannerman:

Re paragraph 7 - Isn't the IG so charged?

Re paragraph 8 - We probably need a study on the impact of BOB requirements and Agency efforts to reduce bureaucratic systems and procedures

The recommendations are not supported by the discussion.  
Nevertheless:

Re paragraph 10 - Might be some advantage in enhancing IG

Re paragraph 11 - FSO system is not a good example. Their system heavily weighs time-in-grade. We should think about a different system for handling CT's.

Re paragraph 12 - It takes two to three years to "get your feet on the ground". I can't imagine a professor coming into CIA to instruct in anything except his own discipline.

Re paragraph 13 - Good idea here. You have already expressed your belief that we must do more of this.

I would like to attend FPBC with you on 27 September. (11 o'clock)

Alan M. Warfield
